

WHITEPAPER

 onvert  me

W H I T E P A P E R

SELL EVERYTHING FROM CLOTHING TO CARS.

The development speed of cryptocurrency is more than twice that of the Internet and the number of users in real life is also increasing exponentially faster than the Internet usage rate. Numerous coins are being created. Blockchain technology is open source, meaning any software developer can use the source code and create something new with it. Developers have done just that. There are estimated to be more than 10,000 different cryptocurrencies in circulation at this time, but the **ConvertMe** technology has a fantastic feature related to blockchain, and the figure keeps increasing.

In this era, everybody wants that he has his own digital or crypto assets that will help or give strength in his bad times. So **ConvertMe** is the place where you can build your crypto assets by just selling your products that are not in your use or spare ones at your home. Just list your product and get digital money and built a digital asset portfolio without spending fiat money.

We are reshaping the entire ecology where users participate in different actions digitally from anywhere globally for a cheap transaction cost that is almost free, allowing for a very liberating, strategic, low-risk, and frictionless experience in a fully decentralized manner using **ConvertMe**.

MAKE YOUR PROFIT EACH DAY WITH US

OUR MISSION

ConvertMe coin is conceptualized as a smart technologies-anchored ecosystem aimed at solving the current problems associated with current conventional crypto trading & transaction processing services, including the delay in payment processing, fraudulent transactions, and expensive transactions costs. Further research into the world of trading the investors want to see increase in the values by investing and through this more people want to invest in this coin. Every transaction on **ConvertMe** coin is registered on our blockchain to ensure unrivaled security and prove the ownership and origin of each item.

- We will attract more people to the blockchain world and help them to build their digital asset portfolio without spending fiat money but instead earning in crypto.
- We want to make people able to buy and sell without having to go through centralized identification verification but by just having a crypto wallet.
- We are going to make giant marketplaces like Amazon and eBay that accept crypto but with **ConvertMe** everything will be based on digital assets.
- Operate as a community-focused and community-driven digital asset, fully decentralized in every sense of the word.
- To create an ecosystem where different solutions can emerge from a social perspective, including collaborative applications.
- To make Blockchain technology and cryptocurrency accessible by the masses, even if the majority don't know how it works.

BEP20 is the token standard of Binance Smart Chain. The BEP20 token standard on BSC applies to any token that is launched or created on Binance Smart Chain's platform. Examples of such tokens are utility tokens, stablecoins, and security tokens.

- **Can Mint** – The “Can Mint” parameter is inflationary, and it specifies whether new tokens can be minted to increase the BEP20 supply over time.
- **Can Burn** – The “Can Burn” parameter is a deflationary one, specifying whether tokens can be burned, thus leading to a decreasing supply over time.
- **Blacklist** – The “Blacklist” parameter enables you to ban or blacklist malicious addresses.
- **Can Pause** – The “Can Pause” parameter is useful during malicious attacks or incidents where the platform becomes vulnerable. This specifies whether one can pause all token-associated operations in the event of a malicious attack or compromise of the platform. This parameter is centralized, as the creator or a user address that is given similar authority has the power to freeze operations.

ConvertMe is going to use the BEP-20 as the standard because of these conditions.

- The function “getOwner” is a unique and required specification only found in BEP20. It returns the owner of a BEP20 token.
- Name, symbol, and decimal functions are optional on ERC20, while they are mandatory on BEP20.

WHY WE ARE UNIQUE?

OPEN FOR GLOBAL PARTICIPANTS

- We facilitate the transaction and bring them closer to a wider audience. An added benefit of use is that it's completely decentralized, so trading can be done freely across borders.
- You can sell anything on the **ConvertMe** from any part of the world. By doing this you will earn the valuable digital currency to fulfill your needs. So there is no boundary problems.
- This also has a huge effect on international payment fees. Traditionally international transfers have much higher fees than domestic transfers and payments. International payments and transfers with crypto are the same as domestic.

FREE FROM CORPORATE AND GOVERNMENT INTERFERENCE

- "ConverMe Coin" transactions have no intermediary institutions or government involvement, and the costs of transacting are kept very low. Additionally, any transfer happens very quickly, eliminating the inconvenience of typical authorization and waiting period requirements.

SAFE & SECURE

- It is a safe and secure platform that is continuously improving the security of the system to ensure the safety of the platform.

ESTABLISHING ECOSYSTEM SOON

Convertme

Token Name ----- Convertme

Token Symbol ----- CME

Decimal ----- 18
